CMI Expands to Four Plants

(COLUMBUS, OH) – A major order from Jackson Center-based Airstream has led motor coach modifier Creative Mobile Interiors to expand its Grove City operations to a total of four separate plants, covering 21,000 square feet. The company previously had occupied two plants and 14,000 square feet. All the plants are located within a half mile of each other along Seeds Road, that parallels I-71 south of Columbus.

The plants include the company's main headquarters and production facility, a separate service area, a plant for work on mini-coaches such as the Freightliner Sprinter cargo van, and a final facility for fabrication of Airstream motorhome cabinetry.

“We’ve just continued to grow so rapidly that we needed to add this extra space,” said CMI President Owen Connaughton. CMI’s revenue has doubled nearly ever year since it was founded in 1999, reaching \$2.6 million last year.

CMI was founded in 1999 and is headquartered in four plants totaling 21,000 square feet in Grove City, Ohio. The company specializes in converting motor coaches, vans, trailers and mini-coaches into luxury, commercial and specialty vehicles outfitted with custom top-of-the-line amenities and electronics. Since its founding, the company has doubled or nearly double in size every year. For more information, CMI can be reached at (614) 539-4600, or at www.creativemobileinteriors.com
